## Zebra Z17 Coalescer

- Patent-pending Flexor, the first ever internal surface skimmer:
  - Concentrates late-separating oil
  - Reduces surface-to-surface contact
  - Forms column of oil allowing for better oil-only discharge
  - Automatically aerates
  - Prevents bacterial growth
  - Cleaner fluid surface allows for chemical monitoring right from coalescing tank
- Choose from four passive skimmers, or intake attachments
- IMPROVED-FLOW submersible, centrifugal pump
- NEW external solids filtration allows for easier maintenance:
  - 1 pint capacity, 170 $\mu$  stainless steel standard
  - 1 quart capacity, 150 $\mu$  stainless steel option (ordered separately)
- Permanent coalescing media accelerates oil collection
- 10 minute hold time
- Heavier-duty spin-welded fittings prevent cracking and leaks
- Clean coolant returned back to sump via gravity
- Built-in siphon makes the coalescer easy to empty
- Drum dolly allows easy movement between machine sumps (ordered separately)

Refer to Intake Attachment literature for details

### How to Specify Your Z17 Coalescer

Base Model	Intake	Pump
Z17	R = Recept S = Sumpster H = Hammerhead F = Floating Sumpster	1 = 110v

Example Specification: **Z17.R1**
