ZEBRA SKIMMERS CORPORATION, INTRODUCES OASIS™ PORTABLE COALESCER

Cleveland, OH-Zebra Skimmers Corporation, a full line manufacturer of oil skimmers and fluid maintenance equipment, introduces its Oasis™ Portable Coalescer.

The Oasis separates tramp oil and fine particles from water-based fluids, such as metalworking fluid, increasing its life and reuse, lowering consumption rates and overall costs.

Meg Grant, Sales & Service Manager of Zebra Skimmers Corporation, comments, "The Oasis was engineered to meet our customers' objectives and many aspects of this design address specific features customers utilizing our Snapdragon™ Deluxe or ADAPT™ models wished for us to incorporate. Their generous feedback has allowed us to design and offer a more solid system, eliminating the two former models altogether."

New & Improved Features of the Oasis include:

- ✘ ON/OFF lever activates power to the air pump
- ✘ Indicator gages placed for easy viewing
- ✘ Gages and filters labeled for easy reference
- ✘ Odor Control Capsule eliminates foul coolant odors
- ✘ Incorporation of Sidewinder™ Tube Skimmer for most effective oil removal

Zebra Skimmers, the leader in fluid maintenance for over a decade, invents new technology to save its customers money on fluid while reducing waste, and sells and supports its equipment worldwide. Most products are guaranteed for at least a year, and some for life.
