## **ZEBRA SKIMMERS CORPORATION, INTRODUCES UNCLE EARL'S™ SOAP FOR MACHINISTS™**

Cleveland, OH-Zebra Skimmers Corporation, a full line manufacturer of oil skimmers and fluid maintenance equipment, introduces Uncle Earl's Soap for Machinists.

Uncle Earl's was developed for machinists and was designed to prevent the irritation caused by metalworking fluid's chemistry and biology.

"We truly appreciate our customers and always listen to them. Uncle Earl's is a product that was developed to meet their needs as individuals, helping to alleviate the problems they have with dry, cracked, and burning hands-a common problem associated with the use of metalworking fluids," remarks Meg Grant, Sales & Service Manager of Zebra Skimmers Corporation.

Benefits of Uncle Earl's Soap for Machinists include:

- ❖ Formulated to easily remove shop grease, oils, and grime
- ❖ Moisturizers protect skin from metalworking fluid's chemistry and biology
- ❖ One 3.4 ounce bar lasts longer than one gallon of liquid soap
- ❖ Made with all natural ingredients
- ❖ Eliminate the need for gritty cleaners and use of liquid glove or other barrier creams

Zebra Skimmers, the leader in fluid maintenance for over a decade, invents new technology to save its customers money on fluid while reducing waste, and sells and supports its equipment worldwide. Most products are guaranteed for at least a year, and some for life.
