ZEBRA SKIMMERS CORPORATION, EXPANDS B SERIES BELT SKIMMER LINE

Cleveland, OH-Zebra Skimmers Corporation, a full line manufacturer of oil skimmers and fluid maintenance equipment, expands its B Series Belt Skimmer line to include a wider belt for heavier oil load applications.

"Our B Series Belt Skimmer has been a traditional favorite of our customers over many years. This new, two inch wide belt unit will provide for increased oil removal rates for customers who have large surface area sumps or central tank applications. The series is still available with a stainless steel belt option to provide oil removal for other fluid applications, such as wash or waste water, as well as in various lengths," comments Meg Grant, Sales & Service Manager of Zebra Skimmers Corporation.

Benefits of the B Series Belt Skimmer include:

- ❖ Rugged, heavy-duty steel construction
- ❖ Fan-cooled motor in various electrical configurations
- ❖ Poly or stainless belting available
- ❖ Various lengths available
- ❖ Lifetime warranty on dual wiper set, one year all other parts (30 days steel belts)

Zebra Skimmers, the leader in fluid maintenance for over a decade, invents new technology to save its customers money on fluid while reducing waste, and sells and supports its equipment worldwide. Most products are guaranteed for at least a year, and some for life.
