ZEBRA SKIMMERS CORPORATION, ANNOUNCES FREE ONLINE RESOURCES

Cleveland, OH--Zebra Skimmers Corporation, a full-line manufacturer of oil skimmers and fluid maintenance equipment, announces its free online resources.

Free resources include a Coolant Troubleshooting Guide and Machine Coolant Standards & Maintenance Log.

Meg Grant, Sales & Service Manager of Zebra Skimmers Corp., indicates "When we see a need regarding coolant maintenance in the metalworking industry, we work to fulfill it. We found that many metalworkers are unfamiliar with coolant maintenance protocols and how to trace any issues to their source for remedy. And, in many cases, shops do not log what maintenance procedures they perform. Our Coolant Troubleshooting Guide will help to trace coolant issues and the Machine Coolant Standards & Maintenance Log tracks coolant conditions to provide advance warning that protocols are not performed."

Coolant Maintenance Protocols include:

- ❖ Manage Water Hardness
- ❖ Manage Concentration
- ❖ Manage pH
- ❖ Manage Tramp Oil
- ❖ Manage Chips

Zebra Skimmers, the leader in fluid maintenance for over a decade, invents new technology to save its customers money on fluid while reducing waste, and sells and supports its equipment worldwide. Most products are guaranteed for at least a year, and some for life.
