

Zebra Skimmers Introduces ZVac II Sump Assistant Vacuum System

Cleveland, OH—Zebra Skimmers Corporation, a full-line manufacturer of oil skimmers and coolant maintenance equipment, recently introduced the ZVAC II Sump Assistance Vacuum System. This new design has 2x the power of the ZVac I.

According to Meg Grant, Inside Sales & Service, "Our customers need to clean their machines and sumps as quickly as possible to save labor and production time. This new design offers twice as much vacuum and discharge power to reduce clean up time, which lowers their overall costs. Unique features have also been added to enhance ease of use."

ZVac II Sump Assistant Features:

- 40 GPM intake and discharge for machine sump and shop floor maintenance
- Easy-lift particle filtration basket
- Improved drain valve for removing sediment
- Equipped with basic tools with multiple tool options
- Trial and rental options available
